VICTORIAN '66

OFFICIAL
YEARBOOK OF
YEAR 1965-66

VICTORIA COMPOSITE HIGH SCHOOL
EDMONTON, ALBERTA, CANADA

Our theme is of campus, of concepts of education extending beyond the confinements of traditional high school. Victoria, today, encompasses more coursed and more students than any Canadian High School. Her organization is the marvel of Western Canada. Her facilities are lavish. Her record outstanding. Ours is a theme of education pushed beyond the frontiers of the parochial, a theme of daring new scope, a theme of magnitude.

(Vocational)

PRINCIPAL'S MESSAGE

Congratulations are extended to the yearbook staff for their publication of the Victorian, the history of life in Victoria Composite High School during the year 1965-66.

This year has marked the amalgamation of the two high schools on this campus: Victoria Composite which opened in 1948 and Vctoria Vocational which opened in 1963. This amalgamation has created one of the largest truly composite high schools in Canada. In its first year of operation, the "new Victoria Composite High School" has provided educational opportunities for some 2400 day students. Instruction for the day classes has involved the services of a professional teaching staff of 145, including two librarians and nine administrators. Some forty-three programs have been offered including academic programs, technical programs, and business education programs. A particular feature of this school has been the wide range of elective opportunities in the fields of Art, Music, Drama, Foreign Languages, Business Education, Shop, and Household Economics.

During the 1965-66 term, our student activity program has continued to function in keeping with the past traditions of excellence. Under the auspices of the Student Union, our school newspaper, school yearbook, literary magazine, clubs, lits, and other student organized social events have provided opportunities for student leadership as well as providing real entertainment. Again, this year, our inter-school teams, the Redmen, have made important showings in all phases of sports. All in all, despite the several problems to be expected in a school of such great size and complexity, this year has been a successful one.

On behalf of all staff members, I congratulate those students who will have completed high school this year and will be leaving us to enter universities, colleges, technical institutes, or the world of work. I wish all students every success in their chosen fields of endeavor and hope you will find a place in life that will reward you with three things: challenging interests, a great measure of satisfaction from life, and a host of loyal friends.

"She's the most beautiful woman I've ever known"
quote Mr. Sharma.

"give me . . . will not
give me . . . will not
Ah come on Kev —
Give me"

"Oh No - I just come for the dances"

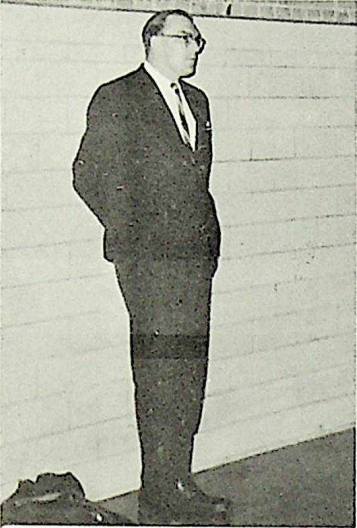

"It's a bug"

"It's now or never!"

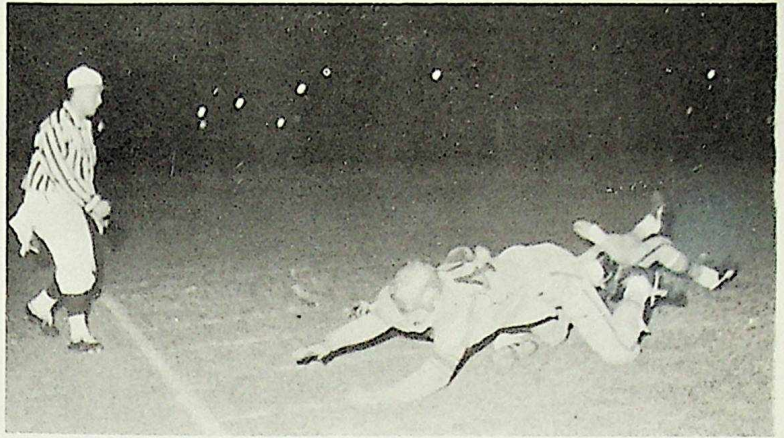

CANDIDS

What's the matter — lose your lucky penny again?

Ready aim

Raise your right hand and repeat after me.

And for my next number I'll play "Dit, dit, dit, dah."

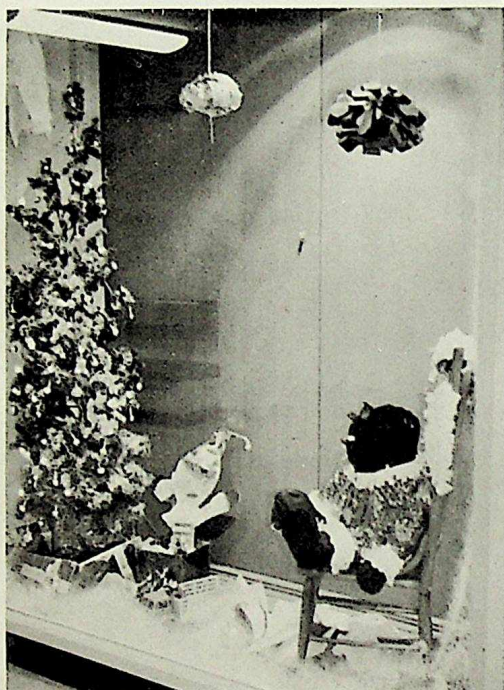

In my hands I hold the power to all mankind.

"Hark the herald."

What's new pussycat?

NEWS for TEENS

No one can say that today's teens aren't "up" on the news and views — they read The Edmonton Journal.

Check the news headlines and stories to keep abreast of happenings locally and abroad . . .
you'll find you're "in the know" in your crowd
and you'll find you're better informed when classwork calls for background knowledge of world events.

On Friday you'll find the Teen Page of special interest, with a round-up of school news, weekly stories by high-school correspondents and regular teen features like Dance Date and Teen Top Ten.

*"In the Know" Teens, "On the Go" Teens
Know It's Precise and Concise in*

The Journal

... reaching more Prairie homes
than any other daily newspaper.

... On Education ...

"Let no youth have any anxiety about the upshot of his education, whatever the line of it may be. If he keeps faithfully busy each hour of the working day, he may safely leave the final result to itself. He can, with perfect certainty, count on waking up some fine morning to find himself one of the competent ones of his generation, in whatever pursuit he may have singled out. Silently, between all the details of his business, the POWER of JUDGING in all that class of matter will have built itself up within him as a possession that will never pass away. Young people should know this truth in advance. The ignorance of it has probably engendered more discouragement and faintheartedness in youths embarking on arduous careers than all other causes put together."

William James,
Psychologist

FROSH

Sunnyside up?

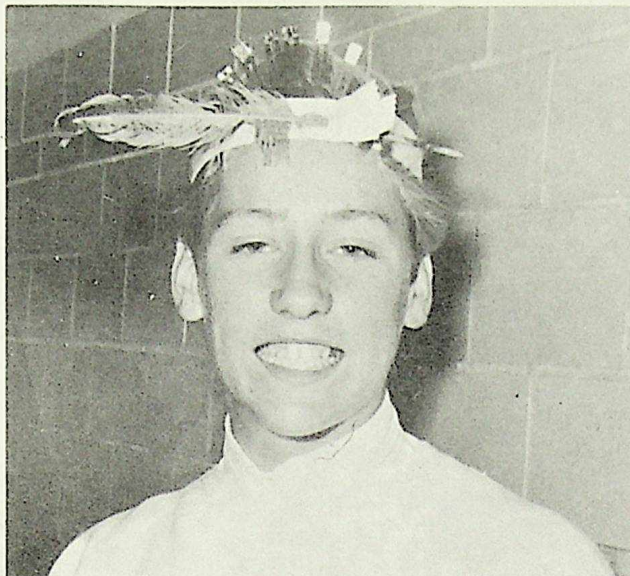

FROSH COURT

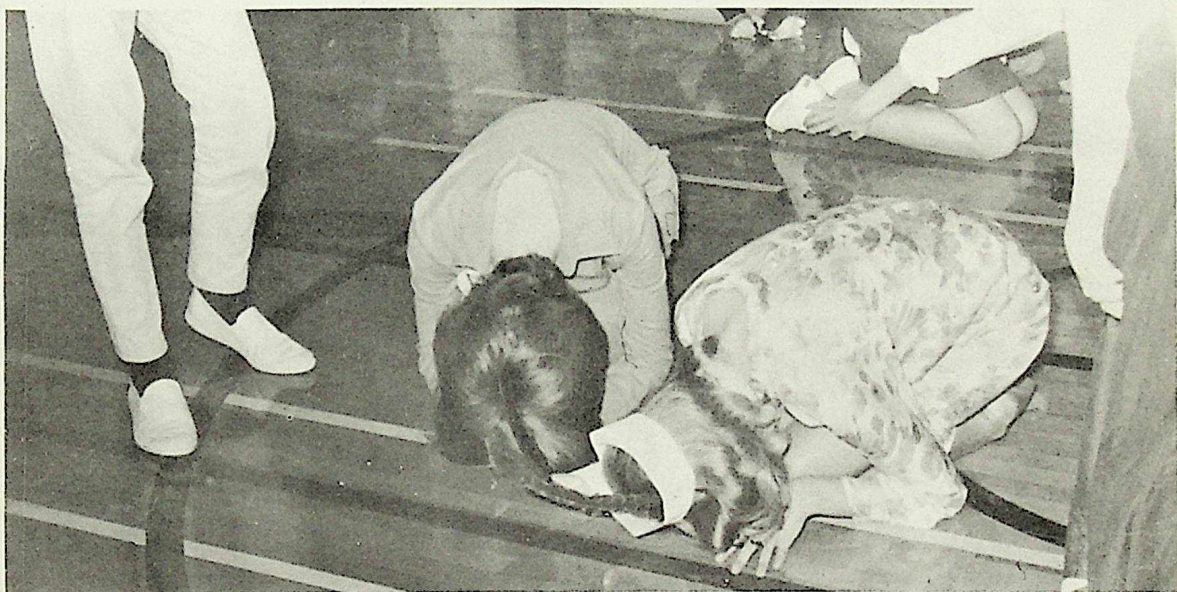

Now has come my day of glory,
 If I'm here to tell the story,
 When these days of Frosh are over.
 Mary had a little lamb,
 A little bird, a little duck,
 A Senior saw them and he said,
 "How about it Frosh?"
 Today I join the mighty ranks;
 For this I give my gracious thanks,
 For now I look in Seniors' eyes,
 They look in mine with great despise.
 Roses are red, violets are blue,
 Super Seniors; with whom I have the
 great honor of becoming so humbly
 acquainted, are GRRRRRRREAT!

Quick darling!

Visit your dentist twice a year and maybe he'll give you a feather too!

Don't tell me that's the boys dressing room down there!

"My favorite memory"?
Fast hands Barry!

A SURVEY OF VICTORIA COMPOSITE STUDENTS

As a culmination to their study of research and research technique, Sociology 20 students of Mr. Smilanich's class conducted a study designed to discover more about the activities and interests of the student body. Questions were prepared and administered to a random selection of approximately four hundred students throughout the school and the results carefully compiled. Even after realizing its many limitations and weaknesses, the students involved felt that the results may be of some interest to you. The numbers are percentages.

STUDENT GOVERNMENT

WAYNE BARRY
Student Union President

PRESIDENT'S MESSAGE

We've done it! "Year Number One" in the existence of Greater Vic has been successfully completed.

The year has not been without its problems. We had to overcome the continued rivalry between the old "Vic" and "Comp" which interfered with the smooth operation of our student government. We have been able to do this by developing our new crest—combining with the words Victoria Composite the torch and gear of the vocation school—and accepting that we all are Vicites—members of a great school.

The severe difficulty in communication within the school that crippled student government activity at the beginning of the year has been to some extent overcome, thanks to the repair of our P.A. system and the poster-making efforts of our Publicity Board. The drop to a very low ebb in our school spirit has been gradually corrected. Student attendance at school games, pep rallies, concerts, plays, and dances has risen steadily since the black days at the beginning of the year. Clubs have flourished in great numbers and variety of activities.

Our sports team, whether they took to the field, floor, or pool, exhibited the high calibre, enthusiasm, and sportsmanship expected of Vicites with a proud tradition of sports excellence. We appreciated the contribution of our cheerleaders to school spirit at games.

No less proud are we of our social activities this year. "Frosh House Party", "Shades A-Go-Go", and "Snow Drift Swirl" were successes, thanks to the efforts of our Social Board and leadership of Mrs. Pritchard.

Our student publications this year have been monumental—in quality, in number, and in their precedent—setting. Not only did we edit and professionally print our newspaper, the "Argosy", and our yearbook, the Victorian, but this year we initiated the first Vic literary magazine, "The Vista", a Student Directory, and a weekly news bulletin, the "Argo". This breath-taking accomplishment is to the credit of the student and staff members of the various publication divisions. Mr. Collett, Mr. Peltier, and the students of Graphic Arts are especially to be congratulated.

With our three stage plays and opening Television shows, Vic had a big year in dramatics. Our bands and choir with their concerts again brought glory to the school.

May I give a special word of thanks to the grad council who have made graduation '66 a memory to cherish for we who are leaving Vic. To the students who will be here next year, I leave a challenge—to participate, to learn, and to contribute—so that next year's students activities will not lack in spirit and enthusiasm. Remember, you are a Vicite now and forever!

Autumn

A Sonnet

*These autumn hours when life retreats and wanes,
 Form not the time when poets long or cry,
 Although in fields the shimmering flowers die,
 And aging men grow grey with loveless strains.
 Nor yet do poets weep when autumn rains
 Destroy the love and laughter moulded by
 The sun in rustling grecas of summer day;
 Nor languish like some dying water cranes.
 These poets find their souls in depths of blue
 And greyest ruins and withered life — where bends
 All love to death — where death alone is true.
 For poets find no love, although they strew
 Their lives with words of search there never ends
 This quest — for love is not the poet's due.*

D. Curtis Long

Winter

The Canadian winter, especially that of Alberta is very cold. When it snows, it snows without end; the sky is dark grey and one cannot see the sun. The days are short because the sun rises late and sets early. Naturally, children like winter. When it snows, they want to go outdoors to play. All children in Alberta skate or ski then, because they like winter.

Snow covers the earth with a pretty white blanket that everyone like to see it? But me, I do not like winter. I do not enjoy shovelling snow.

William Newman

L'Hiver

L'hiver canadien, surtout celui de l'Alberta, est très froid. Quand il neige, il neige sans fin—le ciel est gris foncé et on ne voit pas le soleil. Les jours sont courts parce que le soleil se lève tard et se couche de bonne heure.

Naturellement, les enfants aiment l'hiver. Quand il neige, ils veulent aller jouer en plein air. Tous les enfants en Alberta patinent ou font du ski ensuite, parce qu'ils aiment l'hiver.

La neige couvre la terre d'une jolie couverture blanche que tout le monde aime voir. Mais moi, je n'aime pas l'hiver. Je n'aime pas remuer la pelle la neige.

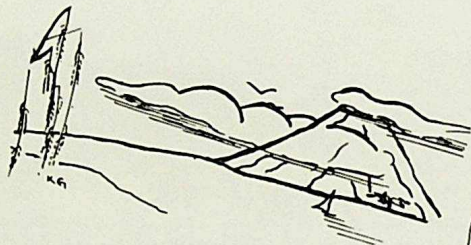

William Newman

Travels With A Donkey In The Cévennes

Night is a dead, monotonous period under a roof; but in the open world it passes lightly, with its stars and dews and perfumes and the hours are marked by changes in the face of Nature. What seems a kind of temporal death to people choked between walls and curtains, is only a light and living slumber to the man who sleeps afield. All night long he can hear Nature breathing deeply and freely; even as she takes her rest, she turns and smiles; and there is one stirring hour unknown to those who dwell in houses, when a wakeful influence goes abroad over the sleeping hemisphere, and all the outdoor world are on their feet. It is then that the cock first crows, not this time to announce the dawn, but like a cheerful watchman spending the course of night. Cattle awake on the meadows; sheep break their fast on dewy hillside, and change to a new lair among the ferns; and houseless men, who have lain down with the fowls, open their dim eyes and behold the beauty of the night.

From *Travels with a Donkey in the Cévennes*, a travelogue by Robert Louis Stevenson. Submitted by William Newman

Haiku

By Bill Kelly

"When I get a little money, I buy books;
and if any is left, I buy food and clothes."
Erasmus 1469-1536

Haiku is a type of Japanese poetry which is relatively unknown in the world at present. It is a seventeen syllable, three-verse poetic form, and a beautiful, subtle, and complex development of a mental picture. The poet's presentation. Although Haiku is just now being popularized, it is poetry with a history.

The Pine

A pine stands in the forest,
Resplendent, green and tall;
All life is scattered round, but
It towers over all.
No mundane thought concerns it
As 'till old and numb,
It's still a world that
...ome.

GRAD PRESIDENT'S MESSAGE

We, the graduating class of "66", have worked hard to achieve this ultimate goal-graduation. During the past three or four years, we have had to meet and surmount many obstacles. Thanks to the excellent leadership of our teachers, and the efficiency of our administrative staff, we leave Vic as mature young men and women ready to face the challenges of the future.

We extend a vote of appreciation to the Students' Council for a job well done; to the leaders and advisers of the numerous and varied clubs which functioned so well during the year; to our school teams and their coaches who carried Vic's colors so proudly.

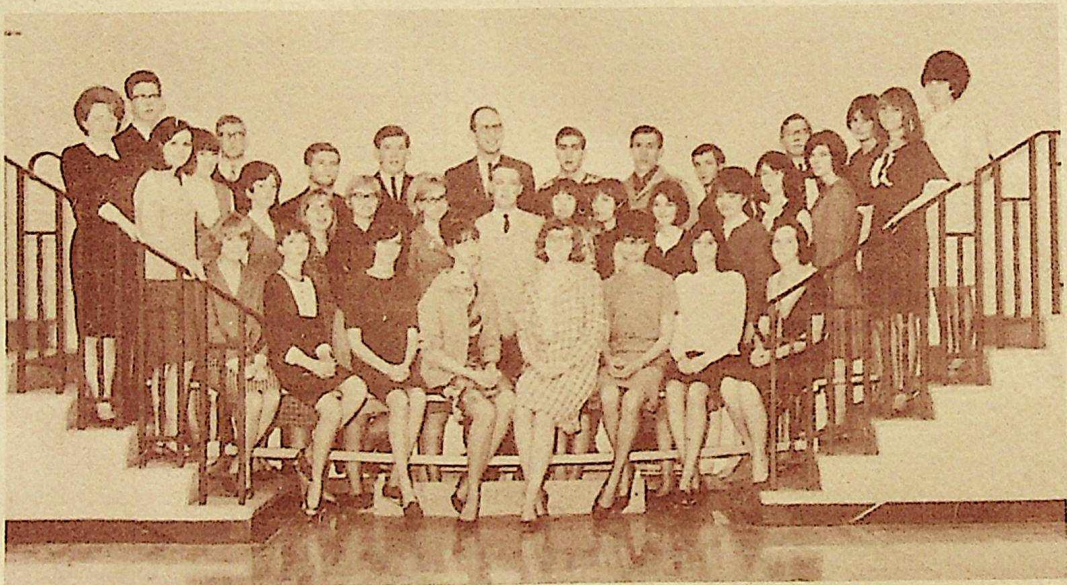

We have witnessed the first year of joint opera-

tion of the Vic Academic and Vic Vocational School under one administration. We have been fortunate in having a far greater selection of career courses at our disposal than in any other town or city in the province. Truly Vic is becoming a centre of individualized education.

As graduands, we are experiencing a feeling of nostalgia as we near the end of our high school career. However, for each ending there is a new beginning. Our future will be what we make it - let it be good.

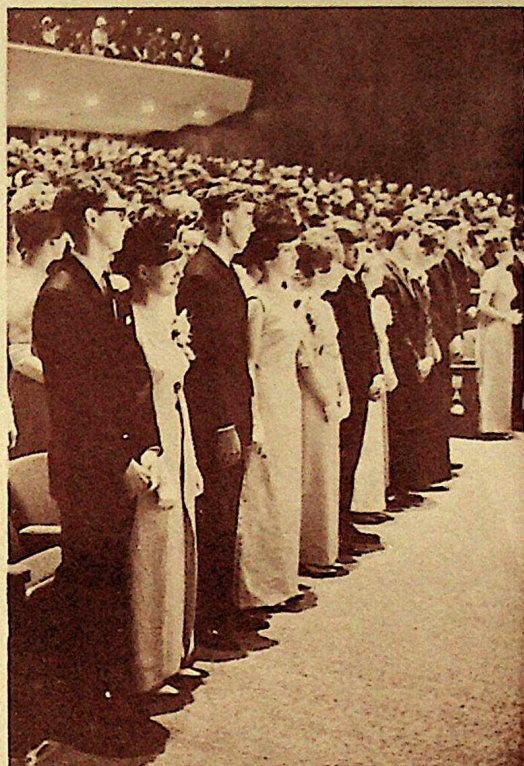

Never before in the history of Vic have so many students owed so much to one school - our school Victoria Composite High School.

VALEDICTORIAN'S MESSAGE

SHARON MALOWANY

When I learned that I had been chosen valedictorian I was overwhelmed by the great responsibility which you had placed upon me. I felt deeply honoured to have been entrusted with so great a task of saying farewell to so many people and to so complex and worthy an institution. However, I am pleased and confident that I can speak truthfully and sincerely about the many pleasant memories which we will treasure for the rest of our lives.

Graduation has a very special, personal meaning for each of us. It seems to be the end of an adventure which a few years ago stretched out endlessly before us. Now we find it the beginning of a new journey. Goethe once said, "Life is a quarry out of which we are to mold and chisel and complete a character." Even now at graduation after nearly two decades of work, we are still rough, unfinished models. But we now possess the basic material and shape which future effort can polish and perfect. We must always remember, however, that our progress thus far has depended on the efforts of many, other than ourselves. We must now gratefully acknowledge these people and institutions.

First we must thank our teachers for they have tried to develop our interest in learning, tried to instill some knowledge and competence in our endeavours. They have given us so much of their time and attention in school and out. Their interest has encouraged us and their help and advice has benefitted us.

Next we say farewell and thank you to Vic itself.

For all our high school years we have been privileged to be part of this great organization. We have learned many things here—sportsmanship, respect for authority and for other people, integrity and cooperation. We have experienced the keenness of competition and have developed an identity for ourselves. We are proud to say, "I'm from Vic!"

Finally, as we sit here today, we must reserve a very special thankyou for some very special people, our parents. They are the main reason for our being here today. They too have come through all our years to graduation experienced our failures and rejoiced in our successes. Always have they encouraged us and helped us. Perhaps at times they have been discouraged for the course has been difficult; but surely our very presence here is the mark of their success.

And so we look at ourselves again. We are at the beginning of a great future which we can hope to improve with the knowledge and ability we have acquired at Vic. Perhaps we will never again be quite as happy as we are now - enjoying a carefree youth with only the first tastes of adulthood and responsibility. We will lose many of our friends as we go on to pursue our individual goals and we will lose much of the security we feel in belonging to this organization. We will face many obstacles. But as Denham said, "Youth, what man's age is like to be doth show; We may our ends by our beginnings know." Each one of us must decide our own futures, our own goals. As we leave Vic, however, with the knowledge and ability we have acquired here, we may feel proud and confident of our beginning.
